

From Any Source...To Any Destination

Vertex is the industry's most advanced software for sharing, viewing, burning, importing, converting, and storing medical studies, images, and related documents. **Vertex** combines the best features of disparate medical imaging applications into a single, IT-friendly software with an intuitive interface.

Access Protected

Vertex users are authenticated through single sign on or built-in user configuration, guaranteeing only authorized users have access at any given time. Access to **Vertex** is further protected by requiring administrator authorization through **Windows** configuration.

Easy to Learn and Use

The **Vertex** interface enriches the user experience and minimizes the amount of bio-medical team resources required for installation, training, and support.

Report Enabled

Vertex's HL7 engine receives radiology report results from HIS, RIS, or EMR, allowing users to distribute reports to referring physicians via numerous sharing methods.

Versatile in DICOM Conversion

Create new studies or enhance existing studies with multi-media objects by DICOMizing image files, video files, office documents, film, paper documents, and via drag-and-drop functionality within **Vertex**.

Designed for PHI Security

Vertex's one-click de-identification allows study data to be anonymized. Additionally, **Vertex's** DISC encryption is DICOM and FIPS 140-2 conformant, guaranteeing the security of PHI on CDs / DVDs generated.

Intelligent Data Retention

Vertex Local Store is a built-in DICOM archive which stores studies and has robust, scheduled self-purging rules for retention of the most recent studies.

Cost-Effective

Vertex is an affordable software solution that can seamlessly integrate with industry-leading autoloaders, protecting your investment in existing hardware.

DICOM and IHE Conformant

Vertex provides peace of mind by tracking and logging transactions for HIPAA compliance.

HIPAA Compliant

Vertex provides peace of mind by tracking and logging transactions for HIPAA compliance.

Automate your Workflows with Vertex

A multitude of workflows are required for sharing data created throughout the healthcare enterprise with outside destinations. **Vertex's** technology enables healthcare facilities to configure a virtually limitless number of data Profiles, each automating a workflow requirement.
