Children's  
Hospital**

- Universal DICOM Worklist
- Advanced HL7 Routing
- Pre-Fetch Relevant Priors
- **De-Identification**
- Unifier VNA
- And more!

## NEW: Direct Image Sharing

*Securely Share Medical Data with Patients and Medical Professionals*

### Direct Email Send platform to anyone

- Medical data is retained locally and streamed on demand through the Vertex Share cloud.
- Streaming minimizes upload bandwidth, eliminates cloud storage costs and significantly reduces security risks.
- DICOM studies, paper, and other digital content are combined by Vertex into a single package ready for sharing.
- Packaged data can be sent to multiple Destinations (CD, USB, ...) under the same job – eliminating duplication of effort.
- No account set up is necessary for recipients – simplify their process, save time and money.

### Dedicated People. Great Customer Experiences...since 1984.

Your job is hard enough. Choosing and using IT solutions can be daunting.

Our job is to help you find the right vendor-neutral solution, at the right price.... and then make sure it performs.

Our Mission is that every part of your whole pre and post-sale experience be positive. You deserve personalized care: a supplier that knows you when you call in and tech support that doesn't stop until you're satisfied.

Data Distributing's culture is centered on Trust, Expertise, and Relationships. We thank you, our Customers, for trusting us all these years.

*Nancy Fisher - President / CEO, Data Distributing LLC*
