

**KAISER
PERMANENTE®**

Southern California Permanente Medical Group accelerates imaging operations for 14 hospitals and 100+ clinics

Strategy

Active and passive instances of Unifier at each hospital to ensure high availability of routing capabilities. Centrally managed libraries of routing logic via LUA scripting so that updates are instantly deployed across the enterprise.

Unifier Features Stack

Intelligent routing, DMWL, Tag Morphing, Bi-directional HL7 Routing, High Availability Auto-Failover, LUA Scripting Framework

80-90% automatic matching of inbound studies

Intelligent data routing across an expansive healthcare enterprise

Improved management of 2,500+ modalities

Accelerated data ingestion at new and existing sites

“The Unifier platform has enabled SCPMG to easily manage a large number of DICOM routers. We can maximize functionality and update the business logic of over 2,500 modalities in our network.”

- Bruce W. Hoel, Imaging Solutions Architect, SCPMG
