

Custom Table

Completely customize a desk based on your space and equipment. Choose your desk size, shape, and color to completely make it your own!

The goal at Double Black Imaging is to make imaging as efficient as possible within the medical display market by providing superior products, whether that includes a comprehensive ergonomic workstation setup, NDT equipment, medical monitors, or the calibration software required for optimal performance.

Double Black Imaging is committed to reducing healthcare costs through the quality of the products we offer. We give each customer individualized service by listening and responding to their needs, gaining trust by exceeding customer expectations, respecting our environment, and supporting our charities. We seek vendors and partners who share our philosophies.
