Vortex Key Benefits:

- Imaging Department can send jobs directly to ROI department from any networked PC from any other area of the hospital – producing a fully labeled, encrypted or password-protected disc of the patient's Medical Images, with an embedded DICOM viewer
- HIM Department can produce a fully labeled, encrypted or password-protected disc of the patient's Medical Records in PDF format
- Provides your patients a "one-stop-shop" to receive their HIPAA-compliant medical records and Medical Images
- Connects with any EMR, PACS, HIS, or any other data sources with permissions
- Includes a Disc-importing tool – to import and route outside studies into PACS
- Mitigates the risk of human error
- Streamlines workflow for the Diagnostic Imaging and HIM Departments by automating the entire process
- Option to burn to thumb drives
- Small footprint size (same size as an office printer)

Vortex Highlights:

- The only CD burning solution for both DICOM Images and PDF Medical Records
- New HIPAA regulations are requiring Encrypted or Password-protected discs
- Staff can produce discs from anywhere in the hospital, at any time.
- Limit patient traffic flow in your hospital – one stop....to pick up medical records AND Images

Package Includes:

- Rimage Allegro 100 - Vertex DICOM Software - DISCO ROI Software - WIN 10 PC

- Onsite installation - 1 Year Rapid Exchange, Tech Support, Software updates

Vortex is used by:

VA | U.S. Department of Veterans Affairs
